

Capital Hash House Harriers – Run 2040 - Horse/Duckhead – The Aranda Cup

A small sized pack for this run, the GM managed to make an appearance, although the RA wasn't happy as he was very sore and stated he wouldn't have been there, but the GM said he would be late. It was an interesting run where the two twin cripples kept mentioning how sore they were from the City to Surf, anyone would think they did good times (well Mr Poo did, the same can't be said for Hidden Flagon though). Gerbils was fun trying to get a fire started, by any means possible, before finally listening to the pack and giving up. It was a night where most of the awards returned and I managed to divest myself of all of them successfully. A great nosh from Horse topped the night off.

Run Report – Greasy gave a very detailed description of the run, I don't have enough pages to write it all down. Something was said about the GM by Greasy, but whatever it was couldn't have been good, but it was awarded a 7, which was promptly downgraded to a 3 by the GM.

Walk Report – Short and sweet, a good walk, score.3
